ABOUT ME

I'm Kanakendu Das, a Full Stack Developer and AI Developer passionate about building modern web applications and intelligent software solutions. I specialize in React, Node.js, MongoDB, and AI technologies, creating scalable, user-friendly, and innovative digital experiences. I enjoy solving complex problems, learning new technologies, and turning ideas into impactful products.

WORK EXPERIENCE

Work Experience

Student Developer | Self-Learning & Personal Projects

2024 - Present

- Developed responsive web applications using React.js, JavaScript, HTML, and CSS.
- Built personal and academic projects to strengthen full-stack development skills.
- Worked with Git and GitHub for version control and project management.
- Learned backend development using Node.js, Express.js, and MongoDB.
- Explored AI and Python-based applications through hands-on projects.
- Continuously improving problem-solving and software development skills.
